

Mini-symposium on “Transparent ceramics” Lectures given by

Dr. Jas Sanghera

*U.S. Naval Research Laboratory, Washington DC, USA
Head of the Optical Materials and Devices Branch
“Infrared Materials and Fiber Optics”*

Dr. Woohong Kim

*U.S. Naval Research Laboratory, Washington DC, USA
Head of High Purity Chemicals Section
“Optical Ceramic Materials, Process, and Applications”*

Prof. Tetsuo Irifune

*Geodynamics Research Center, Ehime University, Japan & ELSI, TITEC, Japan
Professor & Director of GRC
“Ultrahigh-pressure synthesis of transparent nano-ceramics”*

Dr. Nico A. Gaida

*Nagoya University, Nagoya, Japan
Assistant Professor
“Transparent polycrystalline ceramics
consisting of birefringent crystals”*

Date: December 3rd, Monday, 2018

Time: 13:00 – 16:00

Room: 1F meeting room, Building R3

*Contact: Nori Nishiyama (Wakai-Nishiyama Lab.)
email: nishiyama.n.ae@m.titech.ac.jp; tel: 045-924-5337*
