

123rd Seminar in Materials and Structures Laboratory

21st Soft Solution Processing Workshop

Tuesday, October 21, 2008
Tokyo Institute of Technology,
Suzukakedai Campus (R3-6F, Rm. 613)
Yokohama, Japan

Technical Program

- 14:00** Opening
Nobuhiro Matsushita
Tokyo Institute of Technology
- 14:05** Soft Processing for Ceramics: Single-Step Fabrication of Nano-Structured Ceramics Patterns from Solution without Post-Firing
Masahiro Yoshimura
Tokyo Institute of Technology, Japan
- 14:55** Fabrication of Spinel Ferrite Films by Solution Route & its Application as conducted Noise Suppressor
A. K. Subramani, Tokyo Institute of Technology
- 15:25** - *Coffee break* -
- 15:40** Nanocrystalline LaFeO₃ Powders Synthesized by the Citrate-gel Method
G. Shabbir
Center for Scientific Studies, Pakistan
- 16:40** Synthesis of functional nanocrystallites through reactive thermal plasma processing
Takamasa Ishigaki
National Institute for Materials Science (NIMS)
- 17:30** Closing
- 17:45** - *Mixer at SPOPA (Restaurant in Campus)* -
